Encouraging participation in cooperation networks

At the Taitaja2018 competition

14 medals

Tredu’s key success factors for the future are learning in the workplace, employability skills, focus on students, staff competence and well-being and cooperation networks.

Companies will find new employees, on-the-job learners or training for their current staff at Tredu.

Facts and figures are from May 2019

47% directly into the working world

A fantastic gateway to the workplace and further studies

Individualised and flexible studying – always in close cooperation with the working world

students graduating with a vocational upper secondary qualification every year:
2,900

21% directly to further studies

number of followers on social media
7,600
A more technologically intelligent future from Tredu
We have implemented two video projects together with Tredu, and our cooperation has worked out great. We were particularly impressed with the students’ wonderful ideas and skills when they executed the paint job and tape on our YouTube rally car.

Anni and Lauri Vuohenoja,
Hydraulic Press Channel

Tреду secures tomorrow’s professionalism

“Tреду gave me the drive and motivation to go into the technology field. The work was fun and I made my first contacts in the working world. Tреду gave me an excellent profession, which alone has opened new possibilities for my career. This good foundation has also encouraged me to move on to further studies.”

Niko Kähärä,
graduated as a mechanic and electrician

Constant cooperation with businesses

“We have implemented two video projects together with Tреду, and our cooperation has worked out great. We were particularly impressed with the students’ wonderful ideas and skills when they executed the paint job and tape on our YouTube rally car.”

Future entrepreneurship from Tredu
Employees deepen their competence at Tredu

“The most valuable part of my training was getting positive feedback, and learning to trust that I was doing things correctly. My confidence has greatly improved. My employer has also noticed this.”

Annika Strand,
Specialist Qualification in Marketing Communications

Actual work during studies

“We worked together with Tredu students to organise the Messut Nokialla 2018 event, which had over 13,000 visitors. We couldn’t have accomplished it without Tredu’s professional skills. Teachers and students committed to the collaboration with a great attitude. Students participated in traffic control, graphic design, marketing and sales as well as electrical and construction work.”

Jari Tuominen,
CEO, Suomen Lakiekontomiit Oy
Chairman of Nokian yrittäjät ry
A sustainable way of life from Tredu
Learning at work with apprenticeship training

“I’ve been working in the restaurant industry for nine years. I didn't have a Finnish degree, but I really wanted to study something. Apprenticeship training was a great option for me because it allowed me to work during my studies. I'm very happy. A long work experience and vocational qualification are a good combo. I’m very happy.”

Prakash Sabkota,
Vocational Upper Secondary Qualification in the Hotel and Catering Industry, waiter

Students and companies benefit from flexible studies

“We work on a lot of projects together with Tredu. We are developing a model that lets students venture into the working world after only a few months of studying. This way, students get to straight away familiarise themselves with the restaurant, accommodation and services through the sauna and meeting services.”

Juuso Viira,
Marketing Manager, Tullin Sauna and Dream Hostel
Graduated from Tredu as a receptionist
